

## Notice of Beneficiary

### Co-Insurance

### Hospital Based Clinic

Dear Medicare Patient:

This Urgent Care is an off-site department of Saratoga Hospital. Because it is a Hospital site, you will receive a bill from the Hospital as well as a separate bill for the professional services of any doctor you see today or any doctors who interpret the results of your diagnostic tests.

Medicare beneficiaries will be responsible separately for co-insurance amounts on the Hospital and Professional services they receive. These co-insurance amounts are determined by the Medicare Program and are based on the services performed.

In accordance with Medicare's laws and regulations, you will incur a co-insurance liability to the Hospital that you would not have incurred if this office were not provider-based. Since we do not know the exact type and extent of services that you may need, we are unable to provide you with an exact figure of your liability. However, for example, co-insurance balances for an average visit would range between \$10.00 and \$22.00 for an established patient, and between \$10.00 and \$30.00 for a new patient. The typical co-insurance for the Hospital charge is approximately \$21.00.

This is only an estimate. Your actual liability will depend on the actual services received. Saratoga Hospital will bill all insurance companies with which you have coverage.

Saratoga Hospital provides financial help to patients in need. If you reside in New York and are worried that your insurance may not cover your hospital bill in full, we may be able to help.

You can visit a hospital representative Monday-Friday from 8 a.m. to 4:00 p.m. at the following locations:

Patient Financial Services  
59D Myrtle Street  
Saratoga Springs, NY 12866

If you have any questions about your bill or your Medicare explanation of benefits, please call the Saratoga Hospital Patient Financial Services at 518-583-834.

I have read and understand that I will incur a liability to Saratoga Hospital for Medicare co-insurance as permitted by law.
